

About me

I'm Valeria Jiménez, a designer in motion. Over 5 years I've built brands, products and communities across Bilbao, Berlin, Bogotá and Seoul, moving between **product design, strategy and business growth**. I like being part of design that becomes real.

Professional Skills

- I combine **strategic thinking** and **visual sensibility** to design brands, digital products and experiences aligned with real business goals.
- I design **end-to-end UX/UI products**: research, design systems, flows and features shipped to production for mobile and web.
- I apply Design Thinking, Lean UX and Customer Journey Mapping, alongside **AI and low-code tools**, to move from idea to execution fast.
- I work with multidisciplinary teams **bilingually across LATAM, Europe and Asia**, leading branding, content and multichannel campaigns.

Experience

NomadHer, Founding Designer · a travel-community app for women

Seoul · Oct 2025 – Present

- I design the product end to end as the team's only designer: I evolve the app and its design system in continuous cycles, design new features with ongoing user interviews and coordinate each release aligned with the company's business development. **Month-1 retention of 21-23%, up to 5-6x the industry average, with sessions at 83% engagement.**
- As part of the marketing team, I sustain Instagram with weekly production: the content I've developed adds up to **+2M organic views**, with carousels reaching up to 384K views and 1,399 shares.
- I lead graphic design and the app's full email logic, and run multichannel campaigns across IG, ManyChat, email and in-app, like Japan Airlines × NomadHer, Busan Workation and Superalink: **peaks of 24,624 plays and 17.2% engagement**.
- Graphic design of full event packages, like the She Can Travel Anywhere festival (30+ assets: map, program, posters, banners, speaker cards), the Jeonnam Wellness Creator Trip, among others, and their merch lines.
- I built and sustain the team's operation in Notion (CRMs, sprints, OKRs), designed the bloggers and content creators program, and play an active role in developing the business deck, like the investor pitch for **VivaTech Paris**.

BOOST LAB, Creative lead in innovation, design and international expansion experiences

South Korea & Bogotá · Jan 2024 – Present

- We design and run international events end-to-end, like summits and hackathons in Seoul and Bogotá: **up to 400+ attendees and 142,473 views** per edition, with branding, marketing, speakers and a network of **45+ allied institutions** across Colombia and Korea (Bogotá Chamber of Commerce, Invest in Bogota, Seoul Startups, among others).
- We build immersion experiences for LATAM companies in Korea, with industry-based itineraries and full accompaniment, connecting with partners like Antler, Underdogs and Bnomad (International Missions).
- We facilitate and coach entrepreneurs from up to 14 countries, with problem-definition, AI ideation and pitch methodologies (Sejong Globalldea Hackathon).
- We lead Ruta 8 with the Consulate General of Colombia in Quito (Colombia Nos Une): a free entrepreneurship program for Colombians in Ecuador, with **176 applications, 46 selected businesses and 8 workshops**.

N9NE Team Company, Leadership and project development in multicultural environments

Spain, Germany & Korea · 2021 – Sep 2024

- I actively participated as a LEINNer in the international Mondragon Team Academy network, developing real team projects under agile methodologies, market focus and self-management.
- I led a 9-person multicultural team during a key year of organizational transition, coordinating 5+ projects in parallel.
- I designed and tested initiatives in education, wellbeing and technology, generating **59,000€** in revenue. Brands like NOBLED Specialty Coffee (Berlin), Eat's Real (Seoul) and Hola Guesthouse (Jeju).
- I researched cultural dynamics and local needs in South Korea to adapt proposals with real impact and global vision.

Travelling University, Marketing strategy, talent scouting and management of educational experiences

Colombia & Korea · Feb 2025 – Sep 2025

Design and implementation of digital marketing strategies: visual campaigns and content with 100k+ views on social media to position global educational programs and events across LATAM ecosystems.
Digital and hybrid event management: coordination of in-person workshops, connection spaces and brand experiences at events like Mentes Sin Fronteras.
Market analysis and user definition: contextual research, audience mapping and strategic segmentation to design effective access routes.
Operational organization in Notion: creation and structuring of collaborative work hubs for international teams, task tracking and strategic documentation.

Independent design, Branding, web and content strategy for clients in Colombia, Korea and Spain

Colombia & Korea · 2025 – 2026

- I build brand voice and strategy for businesses in transition, like Serema Hotel (Cartagena) and Opuesto SAS (Nariño): positioning, tone and communication pillars.
- I design visual identity systems for multilingual contexts, like the educational cooperative 팀프러너십 교육협동조합 in Korea and the Santa Juliana nature reserve in Colombia.
- **Brújula Ética (Universidad Javeriana × Loyola):** visual identity and campaign strategy for ethics podcasts aimed at young audiences, across two editions.
- I design content and social strategy (matrices, formats, CTAs) to sustain consistent communication across audiences.

Ironhack, Program Manager Assistant – Student experience design and operational improvement

Berlin, Germany · Mar 2023 – Sep 2023

- I designed and oversaw the student experience, implementing improvements in support, integration and feedback processes for cohorts of 30+ participants across UX/UI, Data Analytics and Web Development programs.
- I collected and analyzed progress metrics, surveys and evaluations to optimize educational quality and retention.
- I coordinated logistics and event management: meetups, talks and final presentations, around 3 events per bootcamp with instructors and external partners.

Certifications & Featured Recognitions (2023 – 2026)

- Mentor at Bridge for Billions, with strategic accompaniment for early-stage ventures.
- Talks and lectures on innovation for Universidad Externado and Banco Santander.
- Speaker at CIS Conference (Bogotá, 2025) on talent scouting for global programs.
- **First place at Glocal Quest** (KOSME, Korea, 2023): community Living Lab for rural youth.
- Top 10% at Coderhouse in Marketing, Community Management and Advertising.
